## Please Read Before Ordering

**ORDER EARLY.** This suggestion is made to avoid disappointment in case that later in the season a variety may be sold out. We reserve the right to accept or refuse an order or any part thereof, depending on quantity of stock and whether at shipping time it is in condition to be sent.

All our varieties are true to name but, if in shipping an error is made, we will be glad to rectify mistakes, either by supplying true stock or cash refund, which ever in our judgment seems best.

**TERMS.** Money with order. Make checks or Money Orders payable to the

## Fairmount Iris Gardens

We pay postage on all orders that amount to \$2.00, or over. We also allow a discount of 10% on orders of \$50.00 or more, except new varieties that are listed at net. We ship after blooming season until late Oct.; Beardless irises may be shipped in spring if so desired, all other stock listed will be shipped at proper time. We do not guarantee growth of plants in your garden; that rests with your ability. We do however guarantee good healthy stock and that it should reach you in good condition; any time a customer upon opening a package finds defective plants, he may at once ship them to us at our expense and his money be refunded. Our success depends on your satisfaction and we shall be glad to correct any error.

The numbers at left of pages in the catalogue are the ratings by American Iris Society jurors in the Symposium for 1928; those with no numbers are of recent introduction and for that reason have never been officially rated. Initials found below some varieties are for SPECIAL AWARDS, given by American Iris Society and Horticultural Societies.

NEW INTRODUCTIONS and VARIETIES which are still RARE and STOCK LIMITED are in **BOLD CAP** letters and underlined.

NEWER IRISES of exceptional merit are in **BOLD CAPS** and not underlined.

Those in **bold lower case** but not underlined, are considered excellent but not of as recent date, while those in plain ROMAN CAPS are varieties of worth and beauty that should be in any collection.

On Page 36 and on inside back cover will be found a Bargain list of Irises. Quantity prices may be had upon application.

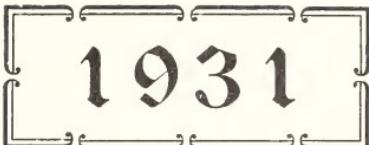

I trust that these explanations will enable you to follow the catalogue with ease and understanding.

## .. Foreword ..

Many years ago, when I first became interested in irises, I little dreamed that I should continue collecting and breeding these beautiful flowers until they became an all absorbing hobby.

Last year finding my garden full to overflowing with delightful and rare irises, I decided to issue a price list in order to dispose of the surplus from my collection.

Meeting with such gratifying response to my first venture, this year I have decided to send out a more complete catalogue, which contains most of the best American and foreign varieties, not only of the bearded irises but, practically all other divisions of the family.

My enthusiasm for irises has led me to the breeding of thousands of seedlings, from which my introductions of 1930 and 1931 have been selected. In the first part of this little book will be found descriptions of these hybrids. I hope that some of them may bring to you half the joy that I have experienced in their production.

It is my good fortune to have the exclusive introduction of the splendid bearded iris "**Mary Geddes**" (H.M., A.I.S. 1930) and the entirely new and wonderful set of Beardless Hybrids, produced by one of our best amateur breeders, Mr. Thomas A. Washington of Nashville, Tennessee. In 1930, two of these, "**Martha Washington**" and "**Sara Cheek**" were given Honorable Mention by the American Iris Society. These are all hardy and great additions to this comparatively new field of hybrids. Too much cannot be said in their praise. They will be found especially described in the general list of irises.

You will also find descriptions of some excellent seedlings which have been chosen from a group of hybrids bred by Mr. Clarence Connell of Nashville, Tennessee. Especial attention is called to Aubade, Alcina, Nepenthe, Rose Dominion and last of all Selene, which is a marvelous, new hardy white.

Other 1931 introductions of especial merit are Ambera Colossus, Blue Hill, Clara Noyes, King Juba, Meldoric and the gigantic new white Wambiska.

In recent years many remarkable irises have been brought forth, among those of exceptional worth are the following; Blue Velvet, Allure, Bedouin, Don Juan, Goldilocks, Kedron, Desert Gold, Dauntless, Melchoir, King Midas, Mareschal Ney, Nusku, Opaline, Indian Chief, Helios, Fascination, Fernande, Rameses, Henri Riviere, Moonbeam, Sunbeam, Pink Satin, Pacific, Pluie d' Or, Tuscany Gold, Sunlight and Yves Lassailly.

Attention is called to the Evansia, Siberica, Spuria and Japanese sections of this catalogue. Authorities have said they are well chosen and quite complete.

In the last four years I have become greatly interested in the lovely new hybrid **Oriental Poppies**. At one time it was almost impossible to purchase

any save the violent toned reds, but, now we find them in great variation of color, from white through the many shades of pink, until we come to old rose, both dark and light, then the unusual and lovely apricot, orange and mahogany tones, finally the new gorgeous deep ox-blood reds. They have been improved not only in color but, length of stem and size of flower until they have become one of the loveliest garden subjects. Following the irises you will find a list of rare and beautiful varieties.

During recent years much attention has been paid to the improvement of **Hemerocallis** or what we commonly know as Day Lilies. There are many new hybrids which enable us to prolong the succession of bloom throughout the summer. We find them in lovely tones of palest lemon, deeper yellow, orange, bronze and softest reds, in others, blending of these colors. Their graceful foliage, large well formed flowers on long slender stems, make them very desirable for use in combination with other perennials. These new hybrids are extremely popular. A list of most of the species and hybrids is included in this catalogue.

Also you will find a brief list of Peonies and interesting perennials with which one may add to the beauties of the garden.

To all true lovers of flowers, a cordial invitation is extended to visit the garden, especially in June and July, for it is during these two months that most of the flowers mentioned are at their height of bloom. Come and enjoy their beauty and charm.

ELIZABETH NOBLE NESMITH

April 15th, 1931.

### *Join The American Iris Society*

Being Regional Vice-President of New England and a charter member of the American Iris Society I feel that too much stress cannot be given to the value and influence of this society.

Four special bulletins are issued each year, which are filled with valuable information. These are sent to each member and most of the back bulletins may be had from the society at a nominal charge.

For every new membership fee which is enclosed with order for irises amounting to \$3.00 or more, I will send an additional value to the amount of \$1.00, my selection.

To those that are already members of the society I will give a 5% discount on orders of \$5.00 or over, providing stock is not too limited, which will rarely be the case.

Checks for membership to be made payable to,

THE AMERICAN IRIS SOCIETY

## Introductions of 1930

<b>HELEN CAMPBELL</b> (Nesmith 1930). A late flowering iris of exceedingly rich effect; standards deep red purple; falls are of same color and extreme velvety substance, almost a true self. The stalk is well branched; many large beautifully poised flowers; 40 to 42 in.	\$10.00
<b>LE PRINTEMPS</b> (Nesmith 1930). A real pink plicata of smooth texture; flowers well placed on strong slender stems, good branching; 38 in.	\$8.00
<b>LORETTO</b> (Nesmith 1930). A soft clear pink; flowers are large and of good substance, stalks are widely branched with many blooms. A beautiful and distinctive iris; 38 to 40 in.	\$10.00
<b>PRAIRIE KING</b> (Nesmith 1930). A Dominion seedling of intense deep blue. Flowers are of uniform color; standards domed; falls flaring and of extreme velvety texture; splendid substance. The stems are very sturdy with many branches. The whole flower has great depth of tone and color; 44 in.	\$15.00
<b>TOMMY TUCKER</b> (Nesmith 1930). A jaunty iris of clear yellow. Flowers are of good size and well carried on strong well branched stems; 37 in.	\$8.00
<b>SPRING MORN</b> (Nesmith 1930). A lovely dainty blend of white and real soft pink. The flowers are large; the stem slender but, sturdy, with excellent branching. The flowers seem like dainty butterflies, lightly poised, as if for flight. The whole flower has a silvery sheen. 38 in.	\$8.00

## Introductions of 1931

<b>CANE LANDS</b> (Nesmith 1931). A splendid iris of variegata coloring. Standards a combination of straw-yellow and buff gold; falls deep velvety maroon. There are many flowers of large size on unusually tall and well branched sturdy stems. A handsome iris of great richness; 46 in.	\$15.00
<b>HOMESPUN</b> (Nesmith 1931). An iris of distinct coloring. The flower is bronze; similar to Amerind but with more depth and life in tone; well branched and delicate; especially good for front of border; 30 in.	\$6.00
<b>INDEPENDENCE</b> (Nesmith 1931). A Dominion seedling of a real deep velvety blue; standards are beautifully arched; falls large and flaring; stalks are of great height and especially well branched. An outstanding iris.	\$15.00
<b>MIDNIGHT SUN</b> (Nesmith 1931). This is a cross of Dominion and Esplendido and has inherited the best qualities of both parents. Flowers are of a deep velvety purple; well branched stalks with ten or more flowers on each; of large size and excellent form 42 to 45 in.	\$8.00

# Bearded Irises

## Newer and Rarer Varieties

<b>ALCINA</b> (Con. 1927 Nesmith 1931). Sister to Aubade. 1931 introduction. S. pale yellow; F. a beautiful blending of blue and gray; large well rounded flowers; excellent; 26 in.	<b>\$12.50</b>
<b>ALLIES</b> (Vilm. 1925). Unusual color; rich dark red and coppery brown; good substance. 38 in. C.M.,S.N.H.F. 1925.	<b>\$3.00</b>
<b>ALTAIR</b> (Vilm. 1928). S. soft smoky lavender; F. extremely rich pansy violet; large flowers on well branched stems; 38 in. C.M., S.N. H.F. 1926.	<b>\$4.00</b>
<b>ALLURE</b> (Murrell 1927). A beautiful opalescent pink and soft yellow blend; a new break in color; especially lovely; high recommendation from England. 38 in. S.M.,R.H.S.1927.	<b>\$9.00</b>
<b>AMBREA</b> (Sass 1930). A splendid large clear yellow intermediate; nearly the size of Doxa; strongly recommended; 32 in.	<b>\$10.00</b>
<b>ANDANTE</b> (Wmsn. 1928). S. arched and cupped; raisin-purple with maroon shadings; F. wedge shaped; velvety raisin purple; new and especially good; 38 in.	<b>\$10.00</b>
<b>ANDRE' BARBIER</b> (Mil. 1927). This is a lovely softly blended bi-color, of variegata type; standards blended yellow; falls velvety brown tones; flaring; well placed on good stems.	<b>\$5.00</b>
<b>Angelo</b> (Hort. 1920). Light lavender-blue self.	<b>\$1.50</b>
<b>ARZANI</b> (Sturt. 1927). Vigor and habit of Sindjkha; a rich, red purple self; somewhat like Ember in color. 43 in.	<b>\$3.00</b>
<b>Asia</b> (Yeld 1916). A splendid outstanding iris; S. silvery lavender; F. deep velvety pansy-violet. This should be in every garden; 52 in; A.M.,R.H.S. 1916.	<b>\$1.50</b>
<b>ASPHODEL</b> (Mor. 1926). Beautiful large pale blue-lavender flower; almost a self; orange beard; a treasure; fragrant; 42 in.	<b>\$2.00</b>
<b>AUBADE</b> (Connell 1927, Nesmith 1931). The Hindu Dawn Song. A glistening flower of great beauty and form. The standards and style branches are of a beautiful soft yellow tone; the falls are a blending of rose and pale gray; distinct yellow beard. The whole flower is suffused with rosy apricot; large flowers on well branched stems; Net.	<b>\$25.00</b>
<b>AURIFERO</b> (M.M. 1927). S. light lavender; F. lavender, flushed rose; throat flushed golden; deep yellow beard; excellent; 40 in.	<b>\$2.50</b>
<b>Autumn Glow</b> (Sturt. 1926). Lovely pale yellow; a ruffled flower of great delicacy; 34 in.	<b>\$2.00</b>
<b>AVATAR</b> (Wmsn. 1927). S. light heliotrope gray; F. Metallic pansy violet; the whole flower has a suffusion of yellow that greatly adds to its beauty; 38 in. A.M.,A.I.S. 1930	<b>\$2.00</b>
<b>BALDWIN</b> (Sass 1927) Manganese violet self of large size; a great favorite; 42 in.	<b>\$3.00</b>

	<b>BEAUSABEREUR</b> (Wmsn 1928). This is a remarkable new type variegata, plainly showing traces of Dominion blood; S. aniline yellow with midveins tinged purple; F. ox-blood red; cadmium yellow beard; a strikingly beautiful flower. 36 in.	\$14.50
	<b>BEDOUIN</b> (Nesmith 1927). An exceedingly clear glowing red iris of unusual beauty and form. Stock limited.	\$8.00
84	<b>Belisaire</b> (Cay. 1924). S. coppery-rose; F. glowing crimson-madder; beard tipped orange; an exquisite flower; 36 in. C.M.,S.N.H.F.1922	\$1.25
	<b>BLUE BANNER</b> (Kir. 1929). A new, beautiful iris, the arrangement of color being like B. Y. Morrison but of light intense blue instead of raisin purple; the general effect is bright electric blue; no other flower equals it in color. 38 in.	\$10.00
	<b>BLUE VELVET</b> (Loomis 1929). Too much cannot be said in praise of this wonderful new iris. A self color; clear, rich, very dark blue; the whole flower has a deep velvety look that is unequalled; large flower on thick strong stems; well branched; 46 in.	\$35.00
	<b>BLUE HILL</b> (Sass 1930). Delightful new iris; color of Sensation, but with larger flowers and perfectly branched stems. 37 in., stock limited.	\$6.00
	<b>Bruno</b> (Bliss 1922). Dominion seedling of unusual coloring; S. fawn and rose; F. deep red purple; whole flower has a brownish red effect; much used for hybridizing; 38 in. A.M.,R.H.S. 1929.	\$2.00
	<b>BUTO</b> (Sass 1926). S. royal purple; F. velvety blackish violet; extremely large flowers; 32 in.	\$2.00
	<b>CALIFORNIA BLUE</b> (Essig 1929). A wonderful blue iris from our western coast; cadmium yellow beard; flowers of immense size on tall stiff well branched stems.	\$3.00
	<b>CAMELIARD</b> (Sturt. 1927). This is a distinct novelty, a variegata blend. The huge well proportioned flowers are amber yellow overlaid with wine purple to within half an inch of the orange beard.	\$6.00
96	<b>Candlelight</b> (And. 1926). The name well describes the flower; blend of pale cream, yellow and blue; large flowers; 46 in.	\$1.75
	<b>CANELANDS</b> (Nesmith 1931). See introductions	\$15.00
90	<b>Cardinal</b> (Bliss 1919). A deep velvety red-purple Dominion; fine growth and habit; one of the best; 39 in. A.M.,R.H.S. 1927.	\$4.00
	<b>CASSANDRE</b> (Cay. 1928). Extremely large flowers of beautiful shape and substance. S. smoky violet-rose; F. deep rich garnet-purple with lighter edge, giving the effect of Persian colors, exquisitely blended; strong well branched stems; one of the very best irises. C. M., S.N.H.F. 1928.	\$10.00
	<b>CAVATINA</b> (Wmsn. 1929). A smooth satiny finished flower; similar to Grisette, but more of a violet self; new; 40 in.	\$3.75
86	<b>Centurion</b> (Bliss 1922). Another excellent Dominion; S. clear violet; F. rich, deep purple; large flower; 34 in. Scarce. A.M.,R.H.S.,1929	\$5.00
	<b>CHALLENGER</b> (Sass 1930). S. dark purple, overlapping; F. blackish violet; flaring; beard tipped orange; one of the largest intermediates; long season of bloom, 29 in.	\$5.00

	CHARIS (Nesmith 1928). Coppery red bi-color, resembling Grace Sturtevant but taller and better branched stalks; 40 in.	\$5.00
89	<b>Chartier</b> (Hall 1925). A smooth clear white; orange beard; long season of bloom; 39 in. Silver Medal, A.I.S. 1927.	\$3.00
	<b>C H E S T N U T</b> (Sass 1930). S. cinnamon drab; ruffled; F. cream, faintly dotted petunia violet; a blended plicata; 30 in.	\$3.00
81	<b>Chlorinda</b> (Mor. 1921). An amber yellow flower of great size; 26 in.	\$1.50
	CHURCHMOUSE (Sass 1929). An almost Hays brown self; wonderful new color; good flower; well branched stem; 38 in.	\$2.00
	<b>CINNABAR</b> (Wmsn. 1928). Wonderful new iris; general effect rich dark red self; heavy red velvety falls. A.I.S. Silver Medal given in 1930 as the most outstanding iris of 1928; 42 in.	\$4.00
	<b>Claret Cup</b> (Mead 1929). A tall glowing petunia-violet iris; firm textured flowers; well branched; 40 in.	\$4.00
	COOLEY'S SURPRISE (Cooley 1928). Medium blue flower of great size and height; the entire flower suffused with pale heliotrope; intense burnt orange beard; well branched; 42 in.	\$10.00
	<b>C O L O S S U S</b> (Sass 1930). The largest American iris. A huge purple self; flower measuring about ten inches; tall and well branched; stock limited.	\$30.00
88	<b>Conchobar</b> (Bliss 1921). Dominion seedling; rich purple flower with reddish cast; larger and taller than Cardinal; 42 in.	\$3.00
	CORONATION (Moore 1927). I consider this one of the best yellow irises that has been introduced; is a deep rich golden yellow of fine form and texture; too much cannot be said in praise of it; 43 in.	\$4.00
	<b>Coppersmith</b> (Shull 1926). One of the finest of Mr. Shull's introductions; S. purple cinnamon-drab; F. flaring, rich velvety red with copper sheen; 42 in. H.M.,A.I.S. 1926.	\$2.00
	<b>CRUCIBLE</b> (Berry 1929). Grayish lavender with conspicuous golden throat which greatly adds to the beauty of the flower; large, free flowering and distinct; 42 in.	\$10.00
	<b>D A U N T L E S S</b> (Con. 1929). The finest red iris that I have seen. It is a self in color but the falls seem darker than the standards, because of their rich deep velvety substance. The large flowers of splendid texture are beautifully poised on very well branched stem. Too much cannot be said for this iris; 40 in. Awarded the Dykes Medal in 1929 by the American Iris Society.	\$20.00
	<b>DAY DREAM</b> (Sturt. 1925). A lovely soft pink bi-color blend of great beauty; 42 in.	\$7.50
83	<b>Delight</b> (Sturt. 1923). A beautiful plicata; F. purest white; style branches pink; a very dainty flower; 40 in. A.M.,A.I.S. 1928.	\$3.00
	<b>DESERT GOLD</b> (Kirk 1929). This is a yellow of large size, perfect form and unusual substance. The flower is pure yellow, luminous, pleasing and fragrant; beard chrome yellow. The stalk is strong and well branched; 32 in. Highest praise is given to this iris.	\$25.00
	<b>DIONE</b> (Edl. 1928). White of excellent form and substance. Distinct in its bright blue veining on either side of the orange beard; 37 in.	\$4.00

<b>Dr. Charles H. Mayo</b> (Fryer 1923). One of the best pinks; larger than Mrs. Marion Cran; very fragrant and free flowering; 42 in.	\$2.00
<b>DON JUAN</b> (Cay. 1928). This iris is of enormous size both in the flowers and foliage. S. light rosy lilac touched with bronze, which gives a pinkish glow; F. bright red, shaded lighter at edge; wide and flaring. Much enthusiasm has been displayed over this iris. Special prize, Iris Com. of France 1928. C.M.,S.N.H.F. 1928.	\$25.00
<b>DOROTHY DIETZ</b> (Wmsn. 1929). S. light blue; soon after the flowers open these change to white; F. broad, wedge shaped, dropping; color, rich pansy violet. The best Amoena to date; unusual; 39 in.	\$10.00
<b>93 DOLLY MADISON</b> (Wmsn. 1927). S. mauvette shading out to yellow; F. flaring; wedge shaped; lilac with maroon cast; bright orange beard; free flowering and vigorous; pastel blend. One of the most popular irises; 39 to 41 in. A.M.,A.I.S. 1926.	\$6.00
<b>88 Dominion</b> (Bliss 1917). Parent of all the Dominion race; wonderful substance; velvety, heavy texture; flaring falls. Everyone should have this iris; 36 in. A.M.,R.H.S. 1917.	\$2.00
<b>DOXA</b> (Sass 1928). An unusual and beautiful intermediate iris. S. a creamy blend; F. flushed with mauve; the whole flower is overcast with pale olive green; greatly admired; stock limited; 28 in. H.M.,A. I. S. 1928.	\$7.00
<b>89 Duke of Bedford</b> (Bliss.1922).S. deep violet with reddish tone; F. velvety black-purple; brilliant orange beard; well branched; 37 in.	\$1.50
<b>EDGEWOOD</b> (Hall 1926). A soft pink and pale yellow bi-color; good substance and branching; very dainty and lovely.	\$4.00
<b>88 Elaine</b> (Shull 1925). A delightful blend of yellow and violet; flower has silken sheen which greatly adds to the beauty; 42 in.	\$1.50
<b>86 El Capitan</b> (M.M. 1926). Beautiful blue-lavendar self; flowers of the largest size on very tall well branched stems; fine substance; 42 in.	\$2.50
<b>85 Elsa</b> (Mor. 1926). Large lavender-blue flowers with flaring falls: Corrida coloring; excellent; 42 in.	\$2.50
<b>EL SINORE</b> (Hall 1925). A distinctive iris of unusual coloring; primrose yellow, suffused and bordered delicate purple. Especially good as a cut flower; under artificial light it is like a gleaming taper; 40 in.	\$3.50
<b>ENDYMION</b> (Sturt. 1924). A lovely blend of deep cream and lilac; delicate and beautiful; 37 in.	\$2.00
<b>Evening Glow</b> (Tut. 1927). Light blue with orange beard; silvery sheen; 38 in.	\$1.50
<b>E V O L U T I O N</b> (Cay. 1929). This is a marvelous new iris of coppery bronze shades; frilled standards; rare and beautiful. Stock limited. C.M.,S.N.H.F. 1928.	24.00
<b>FASCINATION</b> (Cay. 1927). A marvelous new iris from France; Clear pink with enormous flowers of fine substance and form on tall well branched stems. Some think this is better than Pink Satin; 48 in.	10.00
<b>FARANDOLE</b> (Cay. 1928). These large flowers are of entirely different color from any other iris bloom. S. are French gray strongly suffused with pinkish lilac; F. reddish rose center with French gray edge; Plant is of vigorous habit; well branched; flowers an exquisite blending of color; 38 in. C.M.,S.N.H.F. 1928.	\$10.00

<b>FERNANDE</b> (Cay. 1926).	Flowers of large size on tall well branched stems; color is a blending of deep rich bronzy red-purple; excellent.	\$18.00
<b>FIRE GOD</b> (Nic. 1930).	A reddish brown flower of unusual merit; velvety garnet-brown falls; 40 in.	\$3.50
<b>Flambeau</b> (Sturt. 1924).	A glowing yellow iris with flaring falls and vivid orange beard; 40 in.	\$3.00
<b>FRANCHEVILLE</b> (Cay. 1927).	A gigantic iris both in flower and foliage. S. chamois fawn touched with clear lilac. F. reddish purple blended with heliotrope at edge; beautiful intense orange beard; C.M., S.N.H.F. 1927.	\$8.50
<b>FRA ANGELICO</b> (Vilm. 1926).	S. light golden bronze; F. similar, overlaid with metallic blue-lavender. A blend of great charm and beauty; has received many honors. C.M., S.N.H.F. 1926.	\$3.00
<b>85 Frieda Mohr</b> (M.M. 1926).	An enormous tall outstanding pink toned iris with flaring fluted falls on well branched stalks; vigorous and hardy in New England. One of the best of the California group; 42 in.	\$2.50
<b>88 Gabriel</b> (Bliss 1923).	Among the tallest of the Dominion race. S. steel blue; F. violet blue; large flowers of fine form; 42 in.	\$2.25
<b>81 Garden White</b> (Sturt. 1925).	The name well describes it; pure white; effective for mass in garden; 42 in.	\$1.50
<b>GAY HUZZAR</b> (Wmsn. 1929).	Most brilliant variegata; S. crome yellow; F. deep velvety ox-blood red; bright deep orange beard; 35 in.	\$3.00
<b>90 Germaine Perthuis</b> (Mil. 1924).	A richly colored deep violet flower; falls very velvety; sweetly scented; excellent; 38 in. C.M., S.N.H. F. 1924.	\$1.50
<b>89 Glamour</b> (Bliss 1922).	Dominion Seedling; free flowering; strong grower; S. heliotrope touched with pale yellow. F. velvety pansy violet; 38 in.	\$2.00
<b>GLEAM</b> (Nic. 1929).	S. and F. pale sky blue; larger and taller than Mary Barnett and of better color; bright orange beard; 45 in.	\$3.50
<b>84 Gloriae</b> (Cay. 1924).	Clear blue; F. are long and have metallic lustre; large well placed flowers on good stalks, 35 in.	\$1.75
<b>GLUCK</b> (Cay. 1928).	A hybrid of Flammenschwert and Chasseur. S. fawn and bronze lightly touched with lilac; F. garnet-red; velvety; margined with pale bronze; a rare, unusual iris that is well liked; 37 in.	\$10.00
<b>Golden Glory</b> (Jack. H. 1927).	A splendid cream and yellow iris of fine form and excellent branching; very desirable; 39 in. H.M., A.I. S. 1926.	\$2.50
<b>GOLDILOCKS</b> (Way. 1930)	The whole flower is uniform soft yellow of unusual tone with a lustrous silky sheen and smooth texture; large flower; perfect form; well placed on nicely branched stems; 36 in. Stock very limited.	\$50.00
<b>GOLD STREAM</b> (EDL. 1929).	Pale creamy bi-color; conspicuous beard tipped with crome orange which gives the flower a glowing appearance; tall and floriferous; 41 in.	\$10.00

<b>91 GRACE STURTEVANT</b> (Bliss 1926). A splendid Dominion seedling; The flowers are a dark red-brown and violet-carmen; deep orange beard; the falls are extremely velvety of a blackish hue; 38 in.	\$12.50
<b>GRAND MONARCH</b> (Row. 1929). An American introduction of great beauty and form. Almost a self, the coloring being a deep velvety bronze red; center of flower deep gold; heavy brilliant gold beard; highly recommended; 42 in.	\$16.50
<b>Grisette</b> (Wmsn. 1929). A deep toned iris of walnut brown and manganese violet; well liked; 35 in.	\$2.50
<b>HELEN CAMPBELL</b> (Nesmith 1930). See introductions.	\$10.00
<b>HELIOS</b> (Cay. 1929). An enormous yellow of lighter shade than Pluie d'Or; stems well branched and tall; flowers are of lemon yellow, with very faint reticulations on falls when first open, quickly becoming almost invisible. An exceptionally fine iris; rare in America; 44 in.	\$25.00
<b>HENRI RIVIERE</b> (Millet 1927). Exceedingly large flowers well poised on many branched stems; S. pure lemon yellow, deepening to canary yellow at base and edged with same shade; F. are a blending of canary yellow and lilac-mauve; a beautiful color combination that is hard to describe; stock limited; 42 in.	\$10.00
<b>HIGHLIGHT</b> (Nesmith 1928). A soft clear yellow; smooth waxy finish to flower; well branched; medium height; 35 in.	\$2.50
<b>HOARFROST</b> (Mor. 1929). Rampant grower; delightful white flowers on slender well branched stems; good parent plant; 34 in.	\$4.00
<b>Homer C-</b> (Mor. 1922). Color of Opera but large; a brilliant dark red-violet flower.	\$2.00
<b>HOMESPUN</b> (Nesmith 1931). See introductions.	\$6.00
<b>HYACINTHUS</b> (Wmsn. 1928). A large, distinct, rich reddish bi-color; similar in color to Arnols, but much larger and better; 37 in.	\$3.00
<b>Hyperian</b> (Bliss 1921). Lovely blue-lavender bi-color. Dominion seedling; 38 in.	\$1.50
<b>INDEPENDENCE</b> (Nesmith 1931). See introductions.	\$15.00
<b>ION</b> (Mead 1929). A glorified Swazi but a much larger darker flower; cream colored beard; splendid carriage of flowers on tall well branched stems; withstands winds and rains; 40 in.	\$20.00
<b>INDIAN CHIEF</b> (Ayres 1927). One of the best red irises; of splendid form and texture; vigorous; a great addition to any collection; 40 in.	\$10.00
<b>Iriscrest</b> (Mead 1929). A more clear lavender-blue than Ballerine; larger flowers and generally better; 37 in.	\$3.50
<b>Ishtar</b> (Sturt. 1925). A more yellow blend than Sindjkha; large and strong; perfect form and habit; stalk well branched; 42 in.	\$3.00
<b>Istria</b> (Coll. Dykes 1922). A lovely collected species; S. pure white faintly tinted green; F. pure white with slight greenish veins; large blooms. Entirely different; an intermediate; 29 in. A.M., R.H.S. 1927.	\$2.50
<b>JANE WILLIAMSON</b> (Wmsn. 1928). General effect, a pink pastel; in sunlight glows with iridescent colors, a truly lovely iris; 38 in.	\$2.00

85	<b>Julia Marlowe</b> (Shull 1924). A glowing pink and reddish iris; tall and well branched.	\$1.50
	<b>K L A M A T H</b> (Klein.1929). S. hissop violet; F. prune purple; beard extremely yellow; haft and claw beautifully marked with brown; 42 in.	\$40.00
	<b>KATHERINE McFARLAND</b> (Spitzer 1928). A perfect blue-black purple self; exceptional substance and form; 40 in. A.M.,A.I.S. 1926.	\$5.00
	<b>KEDRON</b> (Wal. 1929). Enormous flowers of splendid substance; S. are a rich blue with purple tone; F. still deeper, touched with brown at the haft; free flowering; 41 in.	\$12.00
85	<b>Kestrel</b> (Mor. 1925). Large flowers with flaring blackish purple falls; S. lobelia violet; a richly colored iris; 37 in.	\$3.00
	<b>K I N G J U B A</b> (Sass 1930). Large flowered variegata; flowers beautifully placed on extremely well branched stems; 40 in.	\$20.00
85	<b>KING TUT</b> (Sass 1926). A brilliant iris of an entirely new shade. S. brown with strong reddish lights; F. velvety glowing red; garden effect is a rich red; much admired; 35 in.	\$4.00
	<b>KING MIDAS</b> (Mead 1927). This is a splendid iris of great beauty. The standards are golden buff, suffused garnet-brown; the falls are velvety iridescent garnet-brown edged golden buff; heavy beard of deepest orange; the center of the flower is illuminated with glowing yellow lights; splendid form and carriage.	\$25.00
86	<b>LABOR</b> (Cay. 1926). This is an absolutely new color in irises; flowers are large of red-purple tones; S. are flushed with coppery glow, which gives the flower a burnished glowing red-copper effect; 36 in.	\$3.00
	<b>Lamia</b> (Sturt. 1927). Delicate light pink blend; large flowers; tall and pleasing; 46 in.	\$2.00
	<b>LE CORREGE</b> (Vilm. 1927). Rated by the English Iris Society at 93. S. smoky bronze shot with lavender and suffused red; F. large broad, bright dark velvety red; well and widely branched; 46 in. C. M.,S.N.H.F. 1926.	\$4.75
	<b>LE PRINTEMPS</b> (Nesmith 1930). See introductions.	\$8.00
	<b>LODESTAR</b> (Hall 1925). An exceedingly attractive iris of fine form; S. lemon chrome; F. claret-brown with border of lemon chrome; large flowers of clear colorings; 38 in. A.M.,A.I.S. 1927.	\$4.00
	<b>L O R E T T O</b> (Nesmith 1930). See introductions.	\$10.00
	<b>LOS ANGELES</b> (M.M. 1927). Great white flowers of fine shape, form and substance; petals are faintly edged with blue; this and San Francisco are the largest plicatas; both give an effect of white; 48 in.	7.00
85	<b>LOUIS BEL</b> (Den. 1921). The decidedly black-purple of this iris is very unique, making it outstanding; no other iris of such black coloring has been introduced; 31 in. C.M.,S.N.H.F. 1925.	\$2.00
	<b>LUCIANE</b> (Cay. 1928). This is a new late flowering variety with tall and vigorous foliage; S. bright pinkish lilac; F. flaring; reddish violet with lighter margin; flowers are well placed; very good. 40 in.	\$15.00

	<b>MAGENTA</b> (Cay. 1927). Named for the French battle of Magenta, not from any resemblance to magenta coloring. The flower is a wonderful bright deep pink; large and beautifully formed; greatly admired by all who have seen it. Luxuriant foliage; tall well branched stems. 40 in. C.M.,S.N.H.F. 1929.	\$8.00
87	<b>Majestic</b> (Bliss 1924). Dominion seedling; lavender and raisin purple; strong grower; an excellent iris; 42 in.	\$1.50
85	<b>MARQUISSETTE</b> (Cay. 1926). Absolutely new color; pale shrimp pink with a salmon tinge; free flowering; one of the best; 40 in. C.M.,S.N.H.F. 1924.	\$4.00
90	<b>Mary Barnett</b> (Cumb. 1926). A glorified Princess Beatrice with a brilliant deep orange beard; so bright, that it seems to illumine the center of the flower; free flowering and desirable; 39 in.	\$1.50
	<b>MARY GEDDES</b> (Stahl.-Wash. 1930-Nesmith 1931). An iris of beautiful and unusual coloring. Standards light ochraceous salmon; arched; Falls are of the same shade, overlaid with Pompeian red; might be called a self bi-color. Flowers of great substance; 8 to 10 blooms on one stalk; low and widely branched stems of great height. The following is quoted from Mrs. Hires article in A.I.S. of July 1930, entitled "Seen in Passing",—"but one among the tall bearded was quite outstanding. Indeed, it is one of the most stunning in color I have seen this year—or any year. It was so lovely we returned to it several times, going the following day to see it in its home garden where it stood out among hundreds of seedlings. It is tall, the bloom well placed on a nice stalk. In color it strikes a new note, being a self of light Ochraceous Salmon, which should intrigue one planning for color in the garden". The flowers are especially beautiful and glowing in late afternoon; 40 in; H.M.,A.I.S. 1930.	Net. \$25.00
	<b>MARY NOBLE</b> (Nesmith 1929). Pale blue Dominion seedling; tall and well branched; 40 in.	\$2.50
	<b>MARESCHAL NEY</b> (Wmsn. 1930). Rich bi-colored red with a chestnut brown tone; central area orange lighted; many large flowers; a distinctive iris; 35 in.	\$7.50
	<b>Matilda</b> (Sass 1929). Standards and falls white, sprinkled with soft bluish violet; nearest blue plicata; 31 in.	\$1.25
	<b>MELCHOIR</b> (Wal. 1927). A magnificent iris which in some ways resembles Mrs. Valerie West, but has more of a dusky, bronze tone; F. rich velvety crimson-purple; bright golden beard; growth vigorous with well placed flowers on strong well branched stems.	\$15.00
	<b>MELDORIC</b> (Ayres 1930). Dr. Ayres regards this as his most outstanding production. It combines the richness of Dominion with the size and majesty of Mesopotamica without the tenderness of the latter. The flowers are blue-black, very large in size; broad flaring falls; standards of very dark hue; 40 in. Stock very limited.	\$50.00
	<b>MESSALINE</b> (Mil. 1927). S. pale gold flushed violet-pink; F. Corinthian red with gold shading at throat; 39 in. Stock limited.	\$4.50
	<b>MICHELINE CHAIRRAIRE</b> (Den. 1924). Standards and falls are pure white with golden reticulations at throat giving the iris a warm creamy effect; yellow beard; a splendid white; 46 in. C.M.,S.N.H.F. 1924.	\$2.00

<b>MIDGARD</b> (Sass 1926). This is one of the best and most popular blends. The combination of soft yellow, pink and rose beggars description. Every one should have this iris; 37 in.	\$3.50
<b>M I D N I G H T   S U N</b> (Nesmith 1931). See introductions.	\$8.00
<b>87 Moa</b> (Bliss 1921). Dominion seedling of great height. S. lobelia violet; F. velvety dark red-purple; well branched; unusual color; 42 in.	\$2.00
<b>M O D O C</b> (Essig 1929). A wonderful new iris of outstanding qualities; S. cotinga purple; F. darker than the most blackish purple with a warm velvety texture; beard yellow. The flowers are almost black in color. Stock limited.	\$25.00
<b>MOONBEAM</b> (Mur. 1927). Almost a self of bright glowing yellow. The beard is of the same rich tone. A magnificent iris; too much cannot be said in its praise; rare and lovely.	\$10.00
<b>MONTERAY</b> (M.M. 1929). The flowers are a wonderful bronzed red-violet of good size on tall and well branched stems. A splendid iris; 40 in.	\$10.00
<b>84 Mons. Brun</b> (Den. 1921). A pale brownish bronze iris; slow of growth, but different; 39 in.	\$3.00
<b>MONS. CORNAULT</b> (Denis 1918). This flower is nearly a true crimson. S. are of yellow coppery color, touched with purple; F. are rich crimson; an unusual flower and rated at 90 in England; 38 in.	\$4.00
<b>MOUNT ROYAL</b> (Morg. 1929). S. deep bluish violet; F. very velvety rich red-pansy violet. Large fragrant flowers well placed on good stems; 38 in. Stock limited.	\$5.00
<b>89 Mme. Cecile Bouscant</b> (Mil. 1923). S. clear orchid pink. F. delicate petunia-violet flushed rose. The whole flower is an exquisite shade of orchid pink; charming; 40 in. C.M.,S.N.H.F. 1925.	\$2.50
<b>89 Mme. Durrand</b> (Den. 1912). This is not a new iris but is always lovely. The flower is iridescent buff flushed with amber, lilac tones; large blooms on tall branching stems; 46 in. C.M.,S.N.H.F.	\$1.25
<b>MRS. EDWARD HARDING</b> (Per. 1925). A splendid pallida; S. violet purple; F. deep, dark velvety purple; bronze yellow beard; large well formed flowers; gives a wonderful color effect in the garden; 42 in.	\$3.50
<b>86 MRS. ROBERT EMMET</b> (Per. 1925). A fine celebrated white; flowers milk-white with brilliant yellow beard; good branching stems; many flowers blooming at one time; 38 in.	\$4.00
<b>Mrs. Marion Cran</b> (Per. 1923). One of the tallest and best pink irises; Extreme height and size; tall and stately; much admired; 48 in. A.M.,R.H.S. 1929.	\$1.50
<b>92 MRS. VALERIE WEST</b> (Bliss 1925). Dominion seedling of the second or third generation. S. lavender shot with brown; F. deep crimson maroon. Flowers are very large and well placed on strong well branched stems; a masterpiece; 41 in.	\$14.00
<b>MURILLO</b> (Vilm. 1928). This deep rich toned iris is much admired by the foreign breeders. S. are wine purple of bright clear coloring; F. very velvety rich pansy violet; exceedingly heavy yellow beard; C.M.S.,N.H.F. 1928.	\$4.00

<b>Nebraska</b> (Sass 1927). A splendid ruffled flower of brilliant yellow with slight clouding of brown in fall; must be seen to be appreciated; 36 in.	\$4.00
<b>N E H A W A K A</b> (Sass 1929). The darkest blue-purple of all the plicatas; large flowers; is a great addition to this class; 29 in.	\$2.50
<b>N E P E N T H E</b> (Con. 1927, Nesmith 1931). This is an extremely beautiful blend, so lovely that it is difficult to describe. A soft sea mist coloring; Mother of Pearl blended with the soft blue of summer skies; touched with rose throughout the falls. The flowers have a glistening sheen.	\$12.50
<b>NUSKU</b> (Nesmith 1930). A lovely old rose and yellow blend; luminous flowers; tall and stately; well branched; withstands rains and winds. Extremely well liked.	\$8.00
<b>ODDETTE OLIVETTE</b> (Non 1922). This variety is not well known in this country and is one that is always well liked when seen; similar in coloring to Wild Rose and Rheingauperle; very lovely; 34 in.	\$2.00
<b>OMAHA</b> (Sass 1926). Almost a red self; large blooms on sturdy stems; the rich golden style branches and bright orange beard lend a luminous golden rose tone to the flower; handsome; 34 in.	\$4.00
<b>O P A L I N E</b> (Wmsn. 1930). One of the loveliest irises that I have ever seen. In the same class with Allure; a soft pinkish yellow blend. I cannot recommend it too highly; 38 in.	\$10.00
<b>88 OPHELIA</b> (Cay. 1925). S. golden copper shaded mauve; F. a pleasing blending of yellow and lilac; deep orange beard; excellent; 36 in.	\$2.75
<b>83 OREAD</b> (Mor. 1927). A wonderful bronze and crimson iris; large flowers; brilliant and pleasing; beautiful texture; 34 in.	\$2.00
<b>O R E G O N B E A U T Y</b> (Klein. 1930) S. aconite violet; F. bright velvety purple with strong medial line and brighter edge; well branched stiff stems; extra large flowers; 40 in. Stock limited.	\$35.00
<b>O R E G O N G I A N T</b> (Klein. 1930). S. reddish purple; F. wide and flaring; blackish purple; heavy gold beard; much talked of on the Pacific coast; 42 in. Stock limited.	\$35.00
<b>90 ORTRUD</b> (Mor. 1928). A deep rich warm reddish blending of color; heavy midrib on the standards; large flower; early; 26 in.	\$5.00
<b>Otoe</b> (Sass 1927). A reddish toned iris; not well known.	\$4.00
<b>OSPREY</b> (Berry 1927). A most charming pale lavender; throat is illumined with gold; blooms over a long period. Too much cannot be said in praise of this iris; 40 in.	\$8.00
<b>P A C I F I C</b> (Essig 1929). Color of this lovely flower is similar to that of Santa Barbara but it is larger and finer in every way. 38 in.	\$10.00
<b>PEERLESS</b> (Dykes 1924). A marvelous flower of enormous size and brilliant color; S. erect; light reddish violet; F. long and straight; deep glowing velvety red; beard intense gold; the whole effect is a glowing mahogany-red; highly recommended; 40 in.	\$6.00

<b>PERSIA</b> (Ayres 1929).	A splendid iris of absolutely unique color; S. smoky blue; F. rich blue-purple, shading to a much lighter edge; gold markings at throat; well named on account of its resemblance to a Persian rug; much admired in England; 48 in. H.M.,A.I.S. 1928	\$25.00
<b>PHRYNE</b> (Cay. 1925).	Extremely large flowers; S. lavender shading to rose; F. reddish lilac with silver gray edge. Flowers as large as the gigantic Nene; very distinct and beautiful; 42 in.	\$4.50
<b>90 PETRUCHIO</b> (Mor. 1924).	S. lobelia violet; F. dahlia carmen; golden hafts with brown markings; brilliant flower; strongly recommended; 36 in.	\$4.00
<b>PINK SATIN</b> (Sass 1930).	This iris was one of the most discussed in 1930. The color is a true pink and the texture of the flower is very thick, withstanding wind, rain and heat. The whole flower has a glistening sheen that is only found in lustrous satin.	\$32.50
<b>PLUIE d'OR</b> (Cay. 1928).	The finest most intense yellow that I have ever seen; bright orange beard; stout well branched stems; a glorious iris, 40 in. Dykes Medal, 1928.	\$20.00
<b>PRAIRIE KING</b> (Nesmith 1930).	See introductions.	\$15.00
<b>95 PURISSIMA</b> (M.M. 1927).	A pure white of marvelous size, form and height. This and Shasta were the two finest whites up to this year when Selene and Wambliska were introduced; Thoroughly hardy in my garden. 46 in.	\$5.50
<b>PURPLE HAZE</b> (Sass 1927).	The name well describes the soft coloring of this flower; like the afternoon haze of a September day; a great addition to the garden; 34 in. H.M.,A.I.S. 1927.	\$1.50
<b>RASAKURA</b> (Wmsn. 1930).	A bright reddish bi-color; the standards and falls are really of the same shade but the heavy velvet of the falls makes the contrast. Might be described as a rosy Dominion; strongly recommended; stock limited. 34 in.	\$10.00
<b>RAMESSES</b> (Sass 1929).	S. light russet, vinaceous, with yellow glow through center; F. tourmaline pink, heavy apricot beard; well branched stem; one of the finest new blends; 37 in.	\$10.00
<b>REALM</b> (Baker 1920).	Intense blue self; conspicuous orange beard; large flowers of excellent substance; well recommended; 40 in.	\$3.00
<b>RED WING</b> (Sass 1926).	S. light brown; vinaceous; F. dahlia carmen; a large flower of unusual and intense color; excellent; 38 in.	\$4.00
<b>REFULGENCE</b> (Way. 1930).	This is a late flowered variety that greatly extends the blooming season, usually about two weeks. S. are light violet-blue with bronzy shadings on claw and lower edge of petals; F. are deep velvety violet-purple; beautifully veined white throat; beard is bronzy yellow; extremely large flower with open cup shaped standards; unusual and beautiful.	\$10.00
<b>RHEA</b> (Wmsn. 1928).	A delightful iris of darker shade than Isoline and finer in every way; greatly admired; 36 in.	\$2.00
<b>82 Rialgar</b> (Sturt. 1924).	A modern variegata of deep coloring; 26 in. A.M.,R.H.S. 1929.	\$1.25

	<b>Robert W. Wallace</b> (Per. 1923). S. rich violet; F. very deep, black purple; an excellent iris; much liked.	\$1.50
	<b>ROMANCE</b> (Mur. 1928). A marvelous blend of lustrous rose flushed with bronze; S. fluted on edge; F. flaring; a deeper blending than Al lure; beautiful.	\$10.00
89	<b>Romola</b> (Bliss 1924). One of the best of the Dominion raee; arched standards of pale lilac; falls velvety red; tall and beautifully branched strong grower; 48 in. A.M.,R.H.S. 1929.	\$3.00
	<b>ROSE DOMINION</b> (Con. 1930, Nesmith 1931). A beautiful old rose colored self of Dominion parentage; strong well branched stems; Standards arched; Falls flaring and of deep velvet; beard distinctly golden yellow. Large flowers; a splendid and vigorous iris; net.	\$15.00
	<b>ROSE MITCHELL</b> (Essig. 1929). A charming rose colored self; bright yellow beard; a great favorite in California; hardy. 40 in.	\$10.00
	<b>ROSULTRA</b> (Essig. 1929). The effect of this iris is a bright rich pink; good size, substance and branching; 40 in.	\$5.00
	<b>SACRAMENTO</b> (M.M. 1929). This is a new giant plicata which is entirely different from Los Angeles and San Francisco. The standards are white, heavily edged red-purple; the falls are reticulated with the same color; prominent orange beard; a distinctly beautiful iris; 44 in.	\$20.00
	<b>SANDRINE</b> (Cay. 1927). A large flowered variety of extremely good form and substance; S. fawn brown, touched with heliotrope; F. very large; amaranth red, softening to rosy mauve on the edge; outstanding; 42 in.	\$7.00
90	<b>SAN FRANCISCO</b> (M.M. 1927). This iris is considered to be the best of the giant flowered plicatas; falls and standards are distinctly edged blue-lavender. Flowers are well placed on widely branched stems. A magnifieent iris. Dykes Medal 1927. 44 in.	\$7.50
	<b>SAN LUIS REY</b> (M.M. 1928). This iris is the same color as Opera but flowers are nearly twice as large; strong sturdy stems; the flowers are of heavy substance, beautifully rounded form; golden beard; 40 in.	\$4.00
91	<b>Santa Barbara</b> (M.M. 1925). One of the most beautiful irises, both in form and carriage; large blue lavender flowers; perfect flaring falls; 47 in.	\$1.25
	<b>SELENE</b> (Con. 1928, Nesmith 1931). This is a very large, glistening white, of especially good form and texture; well branched tall stems; perfect flowers; the yellow beard adds greatly to the beauty of this new wonderful iris. Too much cannot be said in praise of this absolutely hardy white; 42 in. Net.	\$20.00
	<b>SENSATION</b> (Cay. 1925). A wonderful corn flower blue iris of perfect form and substance; enormous flowers on tall powerful stems; 48 in. C.M.,S.N.H.F. 1926.	\$9.00
83	<b>SHASTA</b> (M.M. 1927). Flowers are snow white with faint amber at center; an outstanding variety of excellent shape and substance. 40 in.	\$2.50
92	<b>SIR MICHAEL</b> (Yeld 1925). One of the finest irises ever introduced. S. clear lavender blue; F. a rich, very velvety red-purple; beard a brilliant red-gold; too much cannot be said in its praise. 48 in. A.M., R.H.S. 1929.	\$13.50

87	<b>SNOW WHITE</b> (Sturt. 1926). As pure a white as White Knight but the markings are a pale green which gives the flower a very lovely and unusual appearance; 36 in.	\$2.75
	<b>SONATA</b> (Wmsn. 1929). S. deep lilac buff; F. lilac; a very delicate and refined iris that is much admired by all; 36 in.	\$2.25
	<b>SOPHRONIA</b> (Mor. 1923). Like Kashmir White but extremely hardy; flowers have the smoothness and texture of magnolia blossoms; 35 in.	\$3.50
92	<b>SOUVENIR DE LOETITA MICHAUD</b> (Millet 1923). Standards and falls are soft sky blue with yellow markings on haft of the falls; very beautiful; a free bloomer; 54 in.	\$2.00
	<b>SPRING MORN</b> (Nesmith 1931). See introductions.	\$8.00
	<b>STORM</b> (Mur. 1928). A new and excellent variety. S. bluish lilac; F. deep velvety purple; 38 in.	\$4.50
	<b>SUNBEAM</b> (Mur. 1927). This is a self of clear canary yellow; smooth flowers of fine texture and form; well branched; lovely.	\$4.50
	<b>SUNLIGHT</b> (Sturt. 1929). The largest clear yellow that Miss Sturt-evant has introduced; a delicate luminous iris of outstanding form; floriferous; 37 in. H.M.,A.I.S. 1928.	\$15.00
89	<b>SWAZI</b> (Bliss 1922). This is still one of the best of the Dominion seedlings; magnificent large flowers of very velvety substance; withstands wind and rain; color is a deep blackish, blue-violet; 39 in.	\$3.00
	<b>THAIS</b> (Cay. 1926). A delightful large pink flower poised on strong stem; well branched; a more clear pink than Susan Bliss; desirable in every way; 42 in. C.M.,S.N.H.F.	\$4.00
83	<b>THESUS</b> (Hort. 1923). A beautiful soft white of excellent form; deep golden reticulations at throat; a great show flower; 30 in.	\$1.50
85	<b>TRUE DELIGHT</b> (Sturt. 1924). Flower purest white; style branches deep rose; 37 in.	\$1.25
	<b>TUSCAN GOLD</b> (Wmsn. 1929). This is one of the most distinctive irises that Mr. Williamson has produced. The general effect of the flower is a rich coppery gold; cadmium yellow beard; very unusual and lovely; 36 in.	\$10.00
90	<b>UNCLE REMUS</b> (Essig 1928). The largest most magnificent early mulberry-purple iris that can be imagined; outstanding in the garden; 42 in. H.M.,A.I.S. 1927.	\$4.50
	<b>VAN CLEVE</b> (Van Name 1926). Almost a true self of rich purple; F. as deep and velvety as the famous Blue Velvet. The stalk is well branched; floriferous. Given an Award of Merit in 1930 by A.I.S.	\$4.50
89	<b>VESPER GOLD</b> (Wmsn. 1926). This iris has the soft deep golden color of sunset skies; well named; 40 in. H.M.,A.I.S.	\$1.50
	<b>WAMBLESKA</b> (Sass 1930). One of the sensations of 1930. Huge white self; large flowers perfectly spaced on tall thick straight stems. Well branched. The flowers have a cool clear white tone in contrast to the creamy whites such as Micheline Charraire.	\$25.00

<b>White and Gold</b> (Nic. 1928). Pure, gleaming satiny white; brilliant gold beard; low and widely branched; flower of smooth texture; free flowering; 37 in.	\$3.00
<b>WILLIAM MOHR</b> (M.M. 1925). One of the most outstanding and beautiful hybrids that has been produced. It is a cross of <i>Pogoniris</i> and <i>Oncocyclus</i> ; perfectly hardy in my garden (give it light covering of excelsior). Ground color is pale lilac, flushed and veined manganese violet; a huge flower; rigid stems.	\$3.50
<b>YVES LASSAILLY</b> (Cay. 1928). A splendid new iris of especially pleasing color combination, white and delicate blue. S. white; F. white with a blending of soft sky blue toward the center; strong stems; many flowers in bloom at the same time; well branched; excellent and rare. C.M., S.N.H.F. 1928. Special prize by French Iris Commission. 1928.	\$15.00
<b>ZINGARA</b> (Wmsn. 1928). A distinct orangened toned variegata; medium height; many flowers; very unusual. Given Award of Merit in 1930 by the A. I. S.	\$2.25
85 <b>Zulu</b> (Bliss 1920). S. clear analine blue; F. dark velvety blackish purple; late; one of the best Dominions.	\$2.00

## Dwarf Bearded Irises

<b>Atroviolacea.</b> Earliest of all to bloom; rich velvety red purple 5 in.	\$ .50
<b>Black Midget.</b> Very black purple; scarce; 6 in.	\$1.00
<b>BLUE MIDGET</b> (Nesmith 1931). A tiny dwarf of sky blue; new and lovely.	\$1.50
<b>Cyanea.</b> One of the tallest of the dwarfs; fragrant; reddish purple	\$ .50
<b>Marocain.</b> An exceedingly dark colored dwarf of red-purple.	\$1.00
<b>SHADOWLAND</b> (Nesmith 1931). A dwarf of extremely black-purple; much admired by visitors in the garden.	\$1.50
<b>The Bride.</b> Very fragrant white; delightful.	\$ .50
<b>True Pumila.</b> An extremely rare iris of smallest size; scarce.	\$5.00
<b>Yellow Hybrids.</b> These are very lovely shades of yellow and are excellent for the border; per dozen	\$2.00
<b>Dwarf Iris Collection.</b> I will furnish 12 plants; four different varieties; my selection, for	\$2.00

## *Oncocyclus, Regelia and Pogo-Cyclus Hybrids*

<b>Bellorio</b> (M.M. 1924). A Korolkowi hybrid of soft mouse gray coloring; unusual and lovely. A.M., R.H.S. 1924.	\$ .75
<b>Carmelo</b> (Mohr 1921). Another Korolkowi hybrid of blue-violet; different and delightful. A.M., R.H.S. 1924.	\$ .75
<b>Dilkush</b> (Fos. 1909). Large rounded flowers of deep purple color; netted veins on standards; black throat blotch; broad yellow beard.	\$2.50

<b>Giran</b> (Fos. 1913). An oncoeculus hybrid of deep wine color.	\$3.00
<b>Hamadan</b> (Fos. 1909). Upright open standards of rich violet; falls about same shade; broad deep blackish beard.	\$2.00
<b>Hoogiana.</b> Clear smooth flower of satiny blue-lavender; extremely lovely and rare. Has been awarded almost all honors of Iris World.	\$3.00
<b>Korolkowi Hybrids.</b> These include many different hybrids; have been collecting these for several years; each,	\$2.00
<b>Lady Lilford</b> (Fos. 1913). A very rare variety with standards of purple-violet and falls of black-purple; large flower of unusual form.	\$1.25
MORERA (M.M. 1928). One of the loveliest of this group; mulberry purple in color; splendid form.	\$3.00
<b>Nazarin</b> (Fos. 1913). A flower of large size and perfect shape with purple-violet standards and darker falls; lovely.	\$5.00
<b>Parvar</b> (Fos. 1900). A most unusual extremely dark variety; splendid	\$2.25
<b>Pink Korolkowi Hybrid.</b> A beautiful flower which is rare and much admired.	\$4.00
<b>Shiraz</b> (Fos. 1909). A deep reddish toned hybrid; falls have a bright blotch just beyond tips of bluish beard.	\$2.50
<b>Shirin</b> (Fos. 1913). Large soft violet standards; veined; falls purple-violet; white throat; excellent.	\$5.00
<b>Shushan</b> (Fos. 1913). S. erect; bright violet purple; F. flaring; velvety dark mahogany; burnt orange beard; well recommended.	\$2.00
<b>William Mohr.</b> See bearded irises.	
<b>Williamson Korolkowi Hybrid.</b> Lovely form of these hybrids.	\$3.00
<b>Zwanenburg</b> (Denis 1909). An odd brownish flower of large size.	\$1.00

## Evansia or Crested Irises

<b>Cristata, blue.</b> A charming dwarf for shady place in rock garden; sky blue with touch of gold; fragrant.	\$ .25
<b>Cristata.</b> White. This is a lovely white form; very rare.	\$2.00
<b>Gracilipes.</b> A tiny lavender blue iris of dainty form; touched with orange at center; especially fine for shade in rock garden.	\$1.25
<b>Lacustris.</b> A tiny rock garden iris, similar to Cristata blue but smaller.	\$2.00
<b>Milesii.</b> A rare form from the Himalayas; claret-purple.	\$5.00
<b>Tectorum.</b> The famous Roof Iris of Japan; the blue-lavender flowers have a conspicuously fringed white crest; 8 in.	\$ .35
<b>Tectorum.</b> White. Exquisite white form, the crests being marked with gold; very rare; a gem for the rock garden.	\$1.50

# Apogon Irises

## American Species and Hybrids

In recent years these American Species have been used in hybridizing resulting in some exceedingly beautiful and unusual irises. Among these are the wonderful new hybrids produced by Mr. Washington of which I have spoken at length in my introduction.

<b>Hexagona.</b> Native to south-eastern United States, especially Carolina, Louisiana and Florida. Large lavender flowers with bluish cast; it thrives in a well protected spot in my garden; 36 in.	\$1.00
<b>Foliosa.</b> South-eastern United States; large lavender-blue flowers on zig-zag stems; flowers are nestled down in the luxuriant foliage.	\$ .50
<b>Fulva.</b> A species from the southern states, but hardy in the north; A very distinctive iris; flat flowers of bright coppery red; an excellent parent plant.	\$ .50
<b>Fulva Special.</b> A sport of Fulva with a different and more lovely shade of terra-cotta.	\$1.50
<b>Dorothea K. Williamson.</b> (Fulva x Foliosa, Wmsn, 1918). Large velvety flowers of most vivid purple; generally considered one of the best older hybrids of this class.	\$ .50
<b>Fulvala.</b> (Fulva x Foliosa, Dykes, 1910). Quite similar in shape and form to Dorothea K. Williamson, but of a different tone of purple blended with copper.	\$ .60
<b>CACIQUE</b> (Berry 1925). A handsome fulva hybrid in prune-purple and black-purple; taller than Dorothea K. Williamson with a warmer coloring.	\$2.00
<b>ELIZABETH WASHINGTON</b> (Dorothea K. Williamson x Foliosa, Washington 1931). Bright rich velvety blue; small yellow spot under lip; a lighter, brighter blue than Foliosa; Falls 1 in. wide, 2 in. long; slightly cupped; flower 4 in. in diameter; blooms slightly below foliage; 6 or more flowers on 30 in. stem; Good; Net.	\$5.00
<b>GEORGE WASHINGTON</b> (Washington 1931). A Fulva hybrid of clear Indian red; velvety falls $\frac{3}{4}$ in. wide; 2 in. long, slightly curved; Flowers are large and carried above slender, graceful, light green foliage; 3 ft; Net.	\$10.00
<b>MCGREGOR</b> (Washington 1931). A Fulva hybrid of light coppery red tones, containing more yellow than George Washington. Large flowers; Three or more carried on erect branched stalk; Flowers above foliage. Splendid variety; Net.	\$10.00
<b>MARY DOUGLAS</b> (Washington 1931). A Hexagona, Fulva hybrid; a wonderful shade of clear pink of light tone; an unusual flower with long drooping, oblong falls. Flowers are just below the top of foliage. A charming graceful iris of an entirely new color; Net.	\$10.00
<b>MARY LOVE</b> (Washington 1931). A Hexagona hybrid of wonderful height, color and form. Flowers are of a pinkish lavender orchid shade, large in size; 2 branched erect stems; 36 in; Net.	\$5.00

**MARY MORRIS** (Washington 1931). This comes from a Hexagona crossing and is an extremely beautiful and unusual flower which contains a mixture of red, blue and yellow, giving the effect of a tawny blue. Flower about 4 in. in diameter on erect 2 branched stems which are nearly to the top of foliage; Net.

\$5.00

**MARTHA WASHINGTON** (Washington 1931). In 1930 this iris was given Honorable Mention by the American Iris Society. The color of the flower is a rich velvety old rose, deepened by a slightly brownish tone, the whole effect being a glorious deep red. Foliage 36 to 40 in. high; slightly drooping. The flowers are large and well placed on tall erect stems; very floriferous. A seedling of Hexagona; Net.

\$15.00

**MARY WASHINGTON** (Washington 1931). Dorothea K. Williamson X Foliosa. Flower is white and cream with yellow spot under lip, increasing to brown stripe; effect a creamy white; blooms slightly below foliage. A very unusual flower; Net.

\$10.00

**NELLIE KIRKMAN** (Washington 1931). This iris is of Hexagona blood. Flower, light bluish lavender; yellow green spot under lip; Falls fully 1 in. wide; flower 4 in. in diameter; slightly cupped; very straight tall stems, carrying 5 flowers; an extremely interesting variety; Net.

\$8.00

**REBECCA WASHINGTON** (Washington 1931). This is one of the best irises of this group; a pink iris with almost horizontal falls, the flowers being carried on stems well above the 2 ft. drooping foliage. This is the darkest of these pink hybrids, but is a good clear pink. Six flowers to a stalk; Net.

\$5.00

**ROSANNA HOLT** (Washington 1931). This Iris is of splendid height and coloring; Flower is a rich velvety pansy-purple with small green line under lip. The falls are slightly drooping; flowers 4 in. across are above the foliage; handsome and different; Net.

\$5.00

**SARA CHEEK** (Washington 1931). This is the most marvelous pink beardless iris that has as yet been produced. The color is hard to describe being a clear salmony pink; the flowers are 4 in. across, carried on erect 3 ft. stems. Graceful drooping foliage. This was given Honorable Mention by A.I.S. in 1930; Net.

\$15.00

**SAGAMORE** (Berry 1928). A fine tall fulva hybrid on the general order of Cacique, but more red and having an intense brilliant signal on the falls. Well liked by all those that have seen it; very scarce; Net

\$15.00

**SAVANNARUM.** A beautiful tall blue Apogon from the southern states.

\$1.50

**SHERVI.** Handsome sweet scented variety from Arkansas.

\$1.00

**SHERVI.** Alba. White form which is very rare.

\$1.50

**Versicolor.** Our native iris in shades of blue and purple.

\$.50

**VERISCOLOR-KERMESIANA.** A rare form with claret-red flowers.

\$3.00

## Siberian and *Orientalis* Group

### Species and Hybrids

These interesting irises are closely related and by crossing there have been produced many splendid hybrids which surpass their parents in size, beauty, height and form. They are the most graceful and fairy like of all irises.

<b>ANN STAHLMAN</b> (Washington 1931). A very pale blue self; lighter than Perry's Blue; heart shaped falls, not drooping. A very light and elf like flower with small and dainty foliage; Net.	<b>\$5.00</b>
<b>BLUE FLAME</b> (Clev. 1927). Large wide petaled flower of brilliant light blue coloring; perfect form; heavy texture; sky blue.	<b>\$4.00</b>
<b>BLUE RIDGE</b> (Clev. 1929). Large flaring flower of light clear blue of exquisite shade; center turquoise blue; fringed stigmas.	<b>\$3.00</b>
<b>Blue Star.</b> (Clev. 1927). Large flower of deep blue; Standards large and drooping, giving the appearance of a six pointed star; unusual.	<b>\$1.00</b>
<b>BLUE WINGS</b> (Clev. 1929). Tall, with flowers of exquisite clear blue, somewhat darker than Blue Ridge; petals wide and spreading; flower very large with trim jaunty air that is intriguing,	<b>\$4.00</b>
<b>Bob White.</b> (Clev. 1925). Large pure white flower with no veining; very tall.	<b>\$1.00</b>
<b>Butterfly</b> (Clev. 1920). A lovely variety of soft uniform sky blue in standards and styles; Falls have a white ground, flushed soft blue.	<b>.50</b>
<b>BULLEYANA.</b> This is a splendid wild variety with blue-purple flowers of large size borne well above the foliage; rare.	<b>\$1.50</b>
<b>Butterfly</b> (Clev. 1920). Standards and styles a soft blue; falls have white ground flushed with blue; purple veins at throat.	<b>.50</b>
<b>CAESAR</b> (Morgan 1924). This is by far the richest colored Siberian iris that I have seen; a deep dark purple blue; very scarce.	<b>\$25.00</b>
<b>CHRYSGRAPHES.</b> A species of rare beauty; deep velvety violet purple with brilliant gold markings.	<b>\$2.00</b>
<b>DELAVAYI.</b> An exceedingly handsome species of rich red-violet coloring; late flowering; rare.	<b>\$3.00</b>
<b>Dragonfly</b> (Dykes 1923). A very lovely blue with white background.	<b>\$1.00</b>
<b>Edlmann Seedling.</b> A lovely white which has a pink glow.	<b>\$1.50</b>
<b>Emperor.</b> Large flowers of good form and carriage on tall stems.	<b>.35</b>
<b>FLORRIE RIDDLER</b> (Perry 1920). Flowers are of an exquisite blue large and borne on tall stems.	<b>.75</b>
<b>KINGFISHER BLUE</b> (Wallaee 1924). This is a seedling of Perry's Blue and a great improvement in every way; color being brighter.	<b>\$1.00</b>
<b>LLEWELLYN</b> (Clev. 1929). Very tall with large flowers of most unusual shade of soft blue; entirely distinct and outstanding in every way; stock scarce.	<b>\$9.00</b>

<b>MILDRED STAHLMAN</b> (Washington 1931). This lovely new iris is of pale china blue color with flowers of large size; falls do not droop but lay flat when flower is open. A very dainty flower with refined foliage; Net.	\$5.00
<b>MRS. ROWE</b> (Perry 1923). Flowers are white flushed with lavender pink, giving the effect of a pale pink iris; a profuse bloomer and extremely good.	\$ .75
<b>Orientalis, Blue.</b> An old form which is excellent for landscape work.	\$ .35
<b>OSCAR WILDE</b> (Washington 1931). This iris is a hybrid of Bulleyana blood; Falls almost white with a slight cast of bluish gray; distinct blue lines on lower part of fall; style branches deep violet; lip overhanging; Standards slightly lighter than the styles. An extremely odd and attractive flower which should bring joy to any collector's heart; Net.	\$5.00
<b>OLD TOWN SEEDLING.</b> A tall iris of soft blue; unusually well branched; flaring falls; standards having a softly marbled effect that is very decorative; stock very scarce.	\$3.00
<b>Papillon</b> (Vilm. 1924). A beautiful light blue of uniform color; flowers larger than Perry's Blue; very floriferous.	\$1.00
<b>Perry's Blue.</b> (Perry 1912). One of the best of the older Siberians; bright sky blue, but of different tone than any other blue.	\$ .50
<b>PERIWINKLE</b> (Clev. 1927). An exceedingly brilliant blue seedling of Perry's Blue; a much larger flower of deeper more intense blue than the parent; tall and very scarce.	\$7.00
<b>Prismatica.</b> The American species of the Siberian family; is a delicate dainty growing plant and should be in every collection.	\$ .50
<b>RED EMPEROR</b> (Sturt. 1924). This iris is entirely different from others of this class, being wine red, veined and shaded with blue.	\$1.25
<b>RED RAIDER</b> (Clev. 1927). Brilliant red-purple seedling of Red Emperor; extremely velvety.	\$1.00
<b>ROYAL FLUSH</b> (Clev. 1929). A distinct and rarely beautiful iris; color is a deep purple overlaid with red giving a deep velvety effect that is unusual; large flowers, on tall stems.	\$9.00
<b>Snow Queen.</b> Extremely large white flowers on 30 in. stems; rich golden color at throat; an older variety but lovely.	\$ .50
<b>STELLA MAIN</b> (1927) A white form of veriscolor that is extremely rare; white standards, lightly veined pale blue; style branches are of pale blue lavender; midrib of deep mauve; falls white; beautiful and unusual.	\$4.00
<b>STURTEVANT HYBRID.</b> This is a beautiful Siberian of unusual coloring; intense blue with red style branches; whole flower seems lighted with bright glow; more distinctive than many named varieties.	\$2.00
<b>Sunnybrook</b> (Clev. 1920). An exquisite shade of Alice blue; styles with brighter midrib; well liked by all.	\$ .50
<b>True Blue</b> (Fry. 1919). Considered by some to be better than Perry's Blue; a lovely iris of two shades.	\$ .50

**TURQUOISE CUP** (Clev. 1927). A beautiful turquoise blue flower of large size and wonderful form; style branches are a shade lighter than the rest of the flower. Too much cannot be said in its praise.      \$4.00

**WHITE DOVE** (Clev. 1927). A seedling of Emperor which has the same form and texture as its parent but is of a wonderful clear white; rare and beautiful.      \$4.00

## Monspur and Spuria Group

This beardless group is not well known, but really contains some of the most attractive, delicate flowered irises of the genus. The blooms greatly resemble the Spanish varieties and are wonderful for house arrangement as well as a great addition to the garden. Most of them bloom after the peonies have passed. Too much cannot be said in their praise. Different varieties have been crossed producing several new and beautiful kinds, to which have been given the name Monspur.

**A. J. Balfour.** This is a tall intense blue Monspur of fine form; rare 48 in.      \$1.25

**Alba.** A lovely white form; 40 in.      \$1.25

**ALICE EASTWOOD** (Branin 1929). This is a magnificent ochroleuca hybrid which surpasses its parent in every way; very tall, flowers well above foliage and a beautiful white in color. I am fortunate in being able to procure this iris; rare and stock limited; 46 to 48 in; Net.      \$10.00

**Aurea.** This is a rich golden yellow spuria; not to be confused with the bearded iris, Aurea. Ochroleuca and Aurea are the two best of these species; 38 in.      \$1.50

**CAMBRIDGE BLUE.** One of the finest of the Monspur group; color is a deep sky blue, well described by the name; is of English origin; rare; stock limited; fall delivery only; 40 in.      \$10.00

**Dorothy Foster.** An English Monspur; violet standards; falls lighter in color and beautifully striped.      \$2.00

**FAIRY WAND** (Washington 1931). A marvelous hybrid; The color is in effect, old gold tinted with pale light blue; flowers 5 in. in diameter borne on tall erect stems; flowers well above foliage. This is a beautiful flower; large, graceful and well poised; exquisite color; Net.      \$10.00

**Graminea.** An interesting little species from Central Europe; has the odor of ripe apricots; lovely grasslike foliage; charming for flower arrangement.      \$.75

**Halophila.** A species from Central Asia; these irises are charming for arrangement; grows in salt marshes.      \$1.50

**HAZY HILLS** (Washington 1931). This is another splendid spuria hybrid produced by Mr. Washington. The color is a very delicate light blue, tinted with old gold; falls are slightly darker than the standards; flowers of larger diameter and more spreading than those of Ochroleuca. Tall, with blooms well above foliage; 48 in. Net.      \$10.00

**Juno.** Similar in color to Dorothy Foster, but of different form; blue-purple.      \$1.00

<b>Lord Wolseley.</b> A very sturdy and prolific Monspur; blue-purple in color.	\$ .75
<b>EUPHROSYNE</b> (Washington 1931). A very bright clear blue hybrid of splendid shape and forms; much better in every way than Notha or Mrs. Tait; has a decidedly yellow under lip; Several flowers open at one time, well placed, giving the effect of a ten in. spray of flowers; 40 in; Net.	\$7.50
<b>Monaurea.</b> A cross between Aurea and Monnier; producing very large flowers of deep clear yellow on exceedingly long stems; 60 in.	\$2.00
<b>Monnier.</b> Thought to be a sport from Ochroleuca; golden yellow flowers of excellent form; 48 in.	\$1.50
<b>Monspur.</b> This is one of the hybrids of Monnier and spuria type; color, blue-purple; 48 in.	\$ .50
<b>Mrs. Tait.</b> A soft porcelain-blue hybrid; especially good for mass planting.	\$ .50
<b>Mrs. Woodhouse.</b> A beautiful hybrid of soft blue and gold coloring.	\$1.50
<b>Notha.</b> A clear lavender-blue iris; has excellent carrying qualities in landscape effect.	\$ .50
<b>Ochroleuca.</b> This is the most glorious of the wild kinds. Large ivory white flowers with intense orange blotch on the throat.	\$ .50
<b>Ochroleuca-gigantea.</b> An extremely large and tall form of ochroleuca; white with orange markings at throat; splendid specimen for garden.	\$1.00
<b>Premier,</b> One of the Monspurs of pleasing blue coloring.	\$1.00
<b>QUEEN VICTORIA.</b> An ochroleuca hybrid of soft cream coloring with very large golden blotch; has almost the effect of old ivory.	\$5.00
<b>SHELFORD GIANT.</b> This is one of the finest of this group, having immense cream yellow flowers with large characteristic blotch of yellow at the throat.	\$4.00

## Miscellaneous Species of Irises

<b>Arenaria or Flavissima.</b> Vivid yellow; small; rare.	\$2.50
<b>Bracteata.</b> This little iris comes from Oregon.	\$2.00
<b>Carolina.</b> A form of versicolor.	\$1.00
<b>Carolina-Nelsoni</b>	\$2.00
<b>Ensata.</b> Asiatic species; lavender flowers.	\$1.00
<b>Foetidissima.</b> Shade loving iris; seed pods very decorative.	\$2.00
<b>Forrestii.</b> Graceful flowers of clear yellow; fine for rock garden.	\$1.50
<b>Hookeri.</b> Blue flowers.	\$1.50
<b>Setosa.</b> Widely distributed beardless iris species; lovely.	\$1.00
<b>Pseudacorus.</b> Brilliant yellow; English water iris.	\$ .25
<b>Pseudacorus-gigantea.</b> A giant form of the above with deep yellow flowers; splendid for water garden.	\$1.00
<b>Pseudacorus, alba.</b> A white form which is very rare.	\$2.00
<b>Pseudacorus, variegata.</b> Yellow flowers and variegated foliage.	\$2.00
<b>Tricuspis.</b> Leaves grow in fan shaped sheath; delicate lavender and gold flowers on tall stems; exceedingly rare.	\$2.00

## Japanese Irises

This collection of Japanese Irises is considered one of the most authentic in New England. The greatest authority on this section of the iris family assisted me in checking the names and varieties, consequently I feel certain that they are true to name. The following list contains most of the choice kinds.

<b>Albatross.</b> A very excellent white.	\$1.50
<b>ALICE KIERNAN.</b> Crepy white with a blue misting on the falls; rare.	\$2.50
<b>AIR SHIP</b> (Childs 1919). Single and very tall; wide crepy falls of blue-lavender, shaded pinker toward edges; standards soft plum; styles, blue-purple, edged white; lovely.	\$1.00
<b>Amethyst</b> (Childs 1919). Single; large wavy petals of exquisite soft lavender.	\$ .50
<b>ATLANTA</b> (Kemp 1927). Double; flower rosaline pink with soft lavender-pink hue; dainty and extremely beautiful.	\$1.25
<b>Azure</b> (Childs 1919). Double; soft mauve-blue flowers; wavy; yellow throat.	\$ .50
<b>Beauty</b> (Childs 1920). Single; silvery white, suffused blue; inner petals plum, edged white.	\$ .75
<b>Blue Wing.</b> (Childs 1917). A splendid blue.	\$2.00
<b>BETTIE F. HOLMES</b> (Childs 1930). Called by Totty's, the improved Gold Bound. A marvelous white with a midrib of pale lemon yellow; flowers much larger than Gold Bound; excellent; Net.	\$1.50
<b>Betty Jean Childs</b> (Childs 1926). Single; white, faintly splashed with beautiful orchid shade; petaloids deeper shade.	\$ .75
<b>Blue Jay</b> (Hallock 1889). Double; sky blue with distinct white lines on each petal; a very lovely iris for landscape work.	\$ .50
<b>BOBBY SIPE</b> (Kemp 1927). Double; Large white flower overlaid with feathering of bright bluish violet which is heavier at the base of the petals, this surrounds a bright orange blotch; the beauty of this flower cannot be described.	\$1.50
<b>CHARLOTTE</b> (Kemp 1928). A very showy and beautiful variety; a grayish background, suffused with violaceous blue; yellow featherings at throat; double.	\$1.50
<b>Catherine.</b> A soft colored flower of mauve and blue.	\$2.00
<b>CELESTINE</b> (Kemp 1927). Deep silvery pink hue, veined blue; standards deep silver pink with blue markings; exceptionally good.	\$1.00
<b>CHERRY BLOSSOM.</b> This is a soft lovely pink and is very rare; a gem.	\$2.00
<b>COLLINGWOOD</b> (Kemp 1927). Single; lavender pink ground, brushed with violet; standards are upright and long, edged with lavender pink; a beautiful color combination.	\$1.50
<b>Columbia</b> (Wayside 1927). Double; delightful blue, veined with white.	\$1.00

<b>CONSTANCE</b> (Kemp 1928). Single; cerulean blue feathering, overlapping forget-me-not blue background; an excellent variety.	\$1.25
<b>CORNELIA</b> (Kemp 1927). Single; a white flower, veined purplish blue; lavender tints on standards; large flower of superior quality.	\$1.50
<b>DAY DREAM</b> (Kemp 1927). Single; this is an unusually attractive flower of large size; coloring is a soft pinkish lavender; stock very scarce.	\$2.50
<b>DELIGHT</b> (Childs 1925). Double; soft light blue with white markings.	\$ .75
<b>DREAM.</b> Single; large white flower, softly veined; small standards are reddish violet with white edge; exceptionally good.	\$ .75
<b>Dragon's Jewel.</b> Single; a small pink flower of good shape.	\$1.00
<b>FASCINATION</b> (Childs 1926). Double; pinkish lavender tint to whole flower; shaded deeper at the throat; well named.	\$1.00
<b>FRANCIS E. CLEVELAND</b> (Childs 1926). Single; very large crepy petals of blue lavender shading to mauve at edge; a splendid variety.	\$ .75
<b>GANYMENE</b> (Vilm. 1923). A delightful pink; very rare and much admired.	\$3.00
<b>GEKKA NO NAMI</b> (Childs 1928). Double; beautiful white; yellow throat.	\$ .75
<b>Gold Bound</b> (Hal). Double; an excellent white; especially good for landscape work.	\$ .35
<b>GRENADIER</b> (Kemp 1927). Single; white, overlaid with bright lavender sheen; standards are upright and of pleasing shade of soft lavender, edged blue; flowers 8 in. in diameter; broad rounded petals; beautiful variety.	\$1.50
<b>Hebe</b> (Vilm. 1926). An exceedingly lovely flower of soft mauve tones; rare.	\$2.00
<b>Helene</b> (Vilm. 1906). An exquisite iris of soft blended tones of blue-violet; rare.	\$2.00
<b>Helen Von Siebold</b> (Ware). Single; deep pink; lined with white; large.	\$ .50
<b>Helen Wells</b> (Childs 1924). Single; flower gives the effect of Alice blue; particularly lovely in a clump.	\$ .50
<b>Iso No Nami</b> (Yok.). Double; cerulean-blue on gray-lilac; flower flaked; large yellow blotch.	\$ .45
<b>Jeanette Parry</b> (Childs). Single; white suffused with lines of bluish lavender; petaloïds amethyst violet; charming.	\$ .50
<b>JOHN LEWIS CHILDS</b> (Childs 1926). Single; large flower of white, lightly veined blue; high center petals; mauve and blue.	\$ .50
<b>JOHN FRANCIS</b> (Childs 1924). Single; lavender mauve touched with blue; marvelous coloring.	\$1.00
<b>Josephine Haywood</b> (Childs 1926). Single; blue with soft purple sheen.	\$ .75

<b>KAMATA</b> (Childs Jap.). Single; real sky blue; white veining; the true kind is unusually beautiful and rare.	\$1.00
<b>KATHERINE HAVEMEYER</b> (Childs 1924). Double; an especially good blue lightly veined white; a large flower on exceptionally tall stem.	\$1.50
<b>LAEVIGATA</b> . This is the true Japanese species and is very rare.	\$2.50
<b>LAEVIGATA ALBO PURPUREA</b> (species). The true variety of this rare species; double flower of blue edged with white; almost unknown in this country; collector's flower.	\$4.00
<b>LAWRENCE</b> (Kemp 1928). Double; when flower first opens it is Hortense blue but quickly fades to Ontario violet; a huge flower, 8 in. in diameter; very striking and beautiful variety.	\$2.00
<b>LESTER LOVETT</b> (Lovett). Double; exceedingly large flowers of clear blue.	\$ .75
<b>LUCIE MARSHALL</b> (Childs 1926). Double; pansy violet background; white veins toward center of flower; yellow blotch on white throat. extra.	\$2.00
<b>KHA KHAN</b> (Childs 1928). Single; white flower suffused with blue of soft shade; purple stigmas; large and excellent.	\$ .75
<b>KUMO NO OBI</b> (Kel). Double; sky blue with white lines on each petal.	\$ .50
<b>MARJORIE PARRY</b> (Childs 1926). Double; flowers of light bluish lavender; flaring, ruffled petals which are slightly marbled; one of the best light colored Japanese.	\$ .75
<b>Mars</b> (Hal). Single; reddish purple, striped and mottled with white.	\$ .35
<b>MARTHA KEMP</b> (Kemp 1927). Single; deep lilac ground, brushed venetian blue; upright medium standards, almost solid, deep bluish violet; conspicuous and beautiful variety; 7 in. flower.	\$1.50
<b>Matchless</b> (Way. 1927). Enormous flowers of beautiful mauve.	\$2.00
<b>MARVELLA</b> (Kemp 1928). Phlox purple, splashed phlox pink; flowers extremely large with three broad petals; a marvelously beautiful variety.	\$1.50
<b>Melpomene</b> (Vilm 1906). Double; soft blue flowers, veined darker blue.	\$ .35
<b>Minerva</b> . Single pink, tinted rose.	\$ .50
<b>Minaini</b> . A single of excellent coloring and form.	\$1.50
<b>MIRAGE</b> (Hal). A single flower of pinkish mauve, suffused with pale blue toward center; a beautiful and rare variety.	\$ .75
<b>MONGOL KHAN</b> (Childs 1928). Single; lovely rosy red; extra large; fine.	\$ .75
<b>MOONLIGHT WAVES</b> (Bay.). A beautiful white overlaid with light pink; soft cream yellow halo; the true variety is very rare; an exquisite iris.	\$1.00
<b>Moto Nobu</b> (Barr 1926). Single; a blue of great beauty and form.	\$1.00

<b>Mrs. George Stumpp</b> (Childs 1926). Single; white overlaid with tints of delicate blue; charming.	\$ .50
<b>MRS. J. ALEXANDER HAYDEN</b> (Childs 1926). Double; white ground, edged and lightly shaded violet; stigmas, white slightly edged and tipped violet.	\$ .50
<b>Mrs. Saxton</b> (Childs 1910). A large and extremely double white; good	\$ .50
<b>NOMYI NO TAKI</b> (Childs 1924). Double; white flower; shaded and stippled with rose pink; a strikingly beautiful flower.	\$ .50
<b>NORMANDY</b> (Kemp 1927). Single; This is a rarely beautiful iris; white flower with faint hair lines radiating from yellow blotch at throat; standards are very conspicuous and lovely; bluish violet tipped and edged white; 7 in. flower.	\$1.50
<b>OCEANA</b> (Kemp 1927). Double; flowers are of deep violet blue, extremely ruffled and fluted; very tall and showy.	\$1.00
<b>OLYMPIA</b> (Kemp 1927). Single; this beautiful iris is a blending of rosaline pink and soft lavender; standards of light squills blue and lavender pink; extremely large flower.	\$1.50
<b>ONDINE</b> (Hal.) Single; Background of flower distinct white, shaded with blue toward center; a large and lovely flower.	\$1.00
<b>PAINTED LADY</b> (Childs 1926). Single; white, richly suffused and striped with pink; beautiful.	\$ .50
<b>PINK PROGRESS</b> (Childs 1920). Single; Ashy gray-lavender; clear blue halo with silver sheen; tall.	\$ .50
<b>PRIAM</b> (Vilm.) Single; the falls are distinct blue-lavender, lightly veined; standards are large and of lavender color; rare.	\$1.50
<b>Proserpine</b> (Vilm.). Single; this a very pleasing iris of bright blue.	\$ .50
<b>PRESIDENT HARDING</b> (Way). Double; a large thick petaled flower of fine light blue, shaded darker; last to bloom and one of the best.	\$ .75
<b>QUEEN OF THE BLUES</b> (Way). Double; pale delft blue flower, veined white; handsome.	\$ .75
<b>Quakeress</b> (Hal) Single; broad wavy petals of great size; blue slightly veined; lovely for cutting.	\$1.50

<b>WELCOME.</b> Deep scarlet shaggy petals with dusty black center; an addition to any collection.	\$1.50
<b>WURTEMBERGIA.</b> Enormous cerise scarlet flowers, often 11 inches in diameter; one of the most outstanding reds; makes a brilliant picture.	\$1.50
<b>10 VARIETIES, MY SELECTIONS; ALL NAMED KINDS —</b>	<b>\$5.00</b>

## *Hemerocallis*

<b>H. APRICOT.</b> (Yeld). Clear bright orange flower of excellent form and size; June; 2 ft. hybrid.	\$ .50
<b>H. AUREOLE.</b> A splendid early variety with rich orange flowers; 3 ft.	\$ .50
<b>H. Aurantica.</b> One of the older kinds; good for crossing.	\$ .50
<b>H. BAY STATE.</b> one of the best Betscher hybrids; Tall; deep yellow blooms; the flowers have a delightful wavy edge that greatly adds to their beauty; a persistent bloomer; July and August.	\$2.00
<b>H. Calypso.</b> An older form, but useful in the garden.	\$ .75
<b>H. CINNABAR</b> (Stout). One of the new hybrids produced by Dr. Stout. Brownish red in coloring; Cadmium yellow throat; outer half of petals sprinkled with brown; large flowers with recurring petals; blooms in July.	\$4.00
<b>H. Citrina</b> (Citron Day Lily). Pale sulphur yellow flowers borne on tall graceful stems; very fragrant; a splendid yellow to use in mass; also excellent for cutting.	\$ .50

<b>H. D. D. W Y M A N.</b>	Another wonderful hybrid originated by Mr. Betscher. Light golden yellow with a tawny splash across each petal; the flower gradually fades to a pale soft yellow; excellent; July and August.	\$2.00
<b>H. DR. REGAL.</b>	May and June; pure orange yellow; very fragrant; nice for front of border and especially good for cutting.	\$ .50
<b>H. Dumortierii.</b>	Flowers in June; rich cadmium yellow; back of petals bronze yellow.	\$ .50
<b>H. Dumortierii (Dwarf).</b>	Similar in coloring but exceedingly short.	\$ .50
<b>H. ESTMERE.</b>	A hybrid of fine form and reddish coloring.	\$2.00
<b>H. Flava (Lemon Day Lily).</b>	May and June; clear lemon yellow; very fragrant; excellent for massing.	\$ .25
<b>H. FLAMID.</b>	A hybrid of pleasing color; reddish, overcast with bronze.	\$1.50
<b>H. Fulva Maculata.</b>	One of the older tawny varieties.	\$ .35
<b>H. Fulvax.</b>	A hybrid of similar coloring as Fulva, but better.	\$ .75
<b>H. Fulva (Tawny Day Lily).</b>	June; dusty orange flowers; fine for massing.	\$ .25
<b>H. Forresti.</b>	Wild specie from China.	\$1.50
<b>H. GEORGE YELD. (Perry).</b>	An extremely rare variety of great beauty.	\$3.00
<b>H. Gold Dust.</b>	Very large golden yellow flowers; June; 2 ft.	\$ .50
<b>H. GOLCONDA (Farr).</b>	Chrome-yellow; flowers exceedingly large on 50 in. stems; very desirable.	\$ .65
<b>H. GOLDEN I.</b>	Mr. Betchers produced this sturdy variety with deep orange flowers; blooms in July.	\$2.00
<b>H. HYPERION.</b>	A magnificent hybrid produced by Mr. Franklin B. Mead of Fort Wayne, Indiana. "It surpasses all other Hemerocallis in size, form, color and substance; is equalled or surpassed in texture only by the rare and beautiful Japanese hybrid H. Royal. The flowers of Hyperion, on stout stems 42 in. tall are six in. across and are of the purest canary yellow". Too much cannot be said in praise of this wonderful hybrid.	\$5.00
<b>H. Kwanso Flore pleno.</b>	Double orange flower; tall; blooms in July.	\$ .25
<b>H. KWANSO FLORE PLENO FOL. VAR.</b>	This is a rare form in America; flower is a shaded orange with lighter markings; foliage is green and cream stripped. A famous hybridizer told me he knew of no other stock of this kind in America.	\$1.00
<b>H. HARVEST MOON.</b>	Another masterpiece by Mr. Betscher; Flowers are of a delightful clear orange-sherbert color; petals are long, slender and graceful. This is a splendid variety.	\$2.00
<b>H. LEMONA.</b>	A Betscher hybrid of beautiful pale lemon-yellow; late blooming; tall and generally admired.	\$2.00

H. MAGGIE PERRY (Perry). A foreign hybrid of tawny yellow coloring that is much admired.	\$2.50
<b>H. MANDARIN</b> (Farr). Lemon yellow; bell shaped; recurved petals; very tall; unusual and well liked.	\$ .75
<b>H. MIKADO.</b> A hybrid originated by Dr. Stout. Large flowers rising fully 10 in. above the curving foliage; body of the flower is a rich orange; in the center of each petal is a large blotch of dark almost purple-red; the whole effect is pleasing and very different.	\$4.00
<b>H. MRS. W. H. WYMAN.</b> A marvelous Betscher hybrid of very pale glistening yellow; is the latest to bloom; very delicate in color and form.	\$2.00
<b>H. MRS. A. H. AUSTIN.</b> A handsome hybrid produced by Mr Betscher. Large flowers of deep golden yellow; blooms over a long period of time; July.	\$2.00
<b>H. OPHIR</b> (Farr). Dark golden yellow flowers on 42 in. stems; flowers are extremely large and well placed.	\$ .75
<b>H. ROYAL</b> (Japanese hybrid). A splendid variety of excellent texture and form; Similar in many ways to the wonderful new hybrid-Hyperion.	\$3.00
<b>H. Thunbergii</b> (Japanese Day Lily). A specie that is useful in the garden; rich clear buttercup yellow.	\$ .50
<b>H. VESTA.</b> One of the shorter hybrids by Dr. Stout, but very different and beautiful; deep uniform orange-yellow, lightly touched with orange-red; glistening gold sheen; broad overlapping petals; flowers about 8 in. above the foliage.	\$4.00
<b>H. WAU-BUN.</b> Dr. Stout has produced many hybrids, but this is entirely in a class of its own; uniform Cadmium-yellow, outer half overcast delicate fulvous red; petals are large and broad; freely curving contour of petals is unique.	\$4.00
<b>COLLECTION OF EIGHT VARIETIES, MY CHOICE —</b>	\$4.00
